

Clinical Policy: Tenapanor (Ibsrela, Xphozah)

Reference Number: CP.PMN.224

Effective Date: 03.01.20 Last Review Date: 05.25

Line of Business: HIM, Medicaid Revision Log

See <u>Important Reminder</u> at the end of this policy for important regulatory and legal information.

Description

Tenapanor (Ibsrela®, Xphozah®) is a sodium/hydrogen exchanger 3 (NHE3) inhibitor.

FDA Approved Indication(s)

Ibsrela is indicated for treatment of irritable bowel syndrome with constipation (IBS-C) in adults.

Xphozah is indicated to reduce serum phosphorus in adults with chronic kidney disease (CKD) on dialysis as add-on therapy in patients who have an inadequate response to phosphate binders or who are intolerant of any dose of phosphate binder therapy.

Policy/Criteria

Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.

It is the policy of health plans affiliated with Centene Corporation[®] that Ibsrela and Xphozah are **medically necessary** when the following criteria are met:

I. Initial Approval Criteria

- A. Irritable Bowel Syndrome with Constipation (must meet all):
 - 1. Request is for Ibsrela;
 - 2. Diagnosis of IBS-C;
 - 3. Age \geq 18 years;
 - 4. Failure of one bulk-forming laxative (e.g., psyllium (Metamucil®), methylcellulose (Citrucel®), calcium polycarbophil (FiberCon®)), unless clinically significant adverse effects are experienced or all are contraindicated;*
 - *For Illinois HIM requests, the step therapy requirements above do not apply as of 1/1/2026 per IL HB 5395
 - 5. Failure of generic lubiprostone, unless contraindicated or clinically significant adverse effects are experienced;*
 - *For Illinois HIM requests, the step therapy requirements above do not apply as of 1/1/2026 per IL HB 5395
 - 6. Failure of Linzess®, unless contraindicated or clinically significant adverse effects are experienced;*
 - *For Illinois HIM requests, the step therapy requirements above do not apply as of 1/1/2026 per IL HB 5395
 - 7. Failure of Trulance[®], unless contraindicated or clinically significant adverse effects are experienced;*
 - *For Illinois HIM requests, the step therapy requirements above do not apply as of 1/1/2026 per IL HB 5395

8. Dose does not exceed 100 mg (2 tablets) per day.

Approval duration: 12 months

B. Hyperphosphatemia (must meet all):

- 1. Request is for Xphozah;
- 2. Diagnosis of hyperphosphatemia associated with CKD;
- 3. Member is on dialysis;
- 4. Prescribed by or in consultation with a nephrologist;
- 5. Age \geq 18 years;
- 6. Member meets one of the following (a, b, c, or d):
 - a. Failure (e.g., serum phosphorus > 5.5 mg/dL) of a 4-week trial of calcium acetate at up to maximally indicated doses, unless contraindicated or clinically significant adverse effects are experienced;*
 - *For Illinois HIM requests, the step therapy requirements above do not apply as of 1/1/2026 per IL HB 5395
 - b. Hypercalcemia as evidenced by recent (within the previous 30 days) corrected total serum calcium level > 10.2 mg/dL;
 - c. Plasma parathyroid hormone (PTH) levels < 150 pg/mL on 2 consecutive measurements in the past 180 days;
 - d. History of severe vascular and/or soft-tissue calcifications;
- 7. Failure (e.g., serum phosphorus > 5.5 mg/dL) of a 4-week trial of a non-calcium phosphate binder (e.g., lanthanum carbonate, sevelamer carbonate, see Appendix B) at up to maximally indicated doses, unless clinically significant adverse effects are experienced or all are contraindicated;^
 - *Prior authorization may be required for non-calcium phosphate binders
 ^For Illinois HIM requests, the step therapy requirements above do not apply as of 1/1/2026 per IL HB 5395
- 8. Xphozah is prescribed as add-on therapy to phosphate binder therapy;
- 9. Dose does not exceed (a and b):
 - a. 60 mg per day;
 - b. 2 tablets per day.

Approval duration: 12 months

C. Other diagnoses/indications (must meet 1 or 2):

- 1. If this drug has recently (within the last 6 months) undergone a label change (e.g., newly approved indication, age expansion, new dosing regimen) that is not yet reflected in this policy, refer to one of the following policies (a or b):
 - a. For drugs on the formulary (commercial, health insurance marketplace) or PDL (Medicaid), the no coverage criteria policy for the relevant line of business:
 HIM.PA.33 for health insurance marketplace and CP.PMN.255 for Medicaid; or
 - b. For drugs NOT on the formulary (commercial, health insurance marketplace) or PDL (Medicaid), the non-formulary policy for the relevant line of business: HIM.PA.103 for health insurance marketplace and CP.PMN.16 for Medicaid; or
- 2. If the requested use (e.g., diagnosis, age, dosing regimen) is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized) AND criterion 1 above does not apply, refer to the off-label use policy for the relevant line

of business: HIM.PA.154 for health insurance marketplace and CP.PMN.53 for Medicaid.

II. Continued Therapy

A. Irritable Bowel Syndrome with Constipation (must meet all):

- 1. Request is for Ibsrela;
- 2. Member meets one of the following (a or b):
 - a. Currently receiving medication via Centene benefit or member has previously met initial approval criteria;
 - b. Member is currently receiving medication and is enrolled in a state and product with continuity of care regulations (refer to state specific addendums for CC.PHARM.03A and CC.PHARM.03B);
- 3. Member is responding positively to therapy;
- 4. Failure of one bulk-forming laxative (e.g., psyllium (Metamucil®), methylcellulose (Citrucel®), calcium polycarbophil (FiberCon®)), unless clinically significant adverse effects are experienced or all are contraindicated;*
 - *For Illinois HIM requests, the step therapy requirements above do not apply as of 1/1/2026 per IL HB 5395
- 5. Failure of generic lubiprostone, unless contraindicated or clinically significant adverse effects are experienced;*
 - *For Illinois HIM requests, the step therapy requirements above do not apply as of 1/1/2026 per IL HB 5395
- 6. Failure of Linzess®, unless contraindicated or clinically significant adverse effects are experienced;*
 - *For Illinois HIM requests, the step therapy requirements above do not apply as of 1/1/2026 per IL HB 5395
- 7. Failure of Trulance®, unless contraindicated or clinically significant adverse effects are experienced;*
 - *For Illinois HIM requests, the step therapy requirements above do not apply as of 1/1/2026 per IL HB 5395
- 8. If request is for a dose increase, new dose does not exceed 100 mg (2 tablets) per day. **Approval duration: 12 months**

Approvar duration. 12 months

B. Hyperphosphatemia (must meet all):

- 1. Request is for Xphozah;
- 2. Member meets one of the following (a or b):
 - a. Currently receiving medication via Centene benefit or member has previously met initial approval criteria;
 - b. Member is currently receiving medication and is enrolled in a state and product with continuity of care regulations (*refer to state specific addendums for CC.PHARM.03A and CC.PHARM.03B*);
- 3. Member is responding positively to therapy (e.g., reduction in serum phosphorus from pretreatment level; maintenance of serum phosphorus level ≤ 5.5 mg/dL);
- 4. Xphozah is prescribed as add-on therapy to phosphate binder therapy;
- 5. If request is for a dose increase, new dose does not exceed (a and b):
 - a. 60 mg per day;
 - b. 2 tablets per day.

Approval duration: 12 months

C. Other diagnoses/indications (must meet 1 or 2):

- 1. If this drug has recently (within the last 6 months) undergone a label change (e.g., newly approved indication, age expansion, new dosing regimen) that is not yet reflected in this policy, refer to one of the following policies (a or b):
 - a. For drugs on the formulary (commercial, health insurance marketplace) or PDL (Medicaid), the no coverage criteria policy for the relevant line of business: HIM.PA.33 for health insurance marketplace and CP.PMN.255 for Medicaid; or
 - b. For drugs NOT on the formulary (commercial, health insurance marketplace) or PDL (Medicaid), the non-formulary policy for the relevant line of business: HIM.PA.103 for health insurance marketplace and CP.PMN.16 for Medicaid; or
- 2. If the requested use (e.g., diagnosis, age, dosing regimen) is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized) AND criterion 1 above does not apply, refer to the off-label use policy for the relevant line of business: HIM.PA.154 for health insurance marketplace and CP.PMN.53 for Medicaid.

III. Diagnoses/Indications for which coverage is NOT authorized:

A. Non-FDA approved indications, which are not addressed in this policy, unless there is sufficient documentation of efficacy and safety according to the off label use policies – HIM.PA.154 for health insurance marketplace and CP.PMN.53 for Medicaid, or evidence of coverage documents.

IV. Appendices/General Information

Appendix A: Abbreviation/Acronym Key

FDA: Food and Drug Administration NHE3: sodium/hydrogen exchanger 3

IBS-C: irritable bowel syndrome with CKD: chronic kidney disease

constipation

Appendix B: Therapeutic Alternatives

This table provides a listing of preferred alternative therapy recommended in the approval criteria. The drugs listed here may not be a formulary agent for all relevant lines of business

and may require prior authorization.

Drug Name	Dosing Regimen	Dose Limit/ Maximum Dose
psyllium (Metamucil®)	IBS-C	7.2 g (as soluble
	1 rounded teaspoonful, tablespoonful, or	dietary fiber)/day
	premeasured packet in 240 mL of fluid PO, 1	
	to 3 times per day (2.4 g of soluble dietary	
	fiber per dose)	
calcium polycarbophil	IBS-C	6,000 mg/day
(FiberCon®)	1,000 mg 1 to 4 times per day or as needed	
methylcellulose	IBS-C	Caplet: 12
(Citrucel®)	Caplet: 2 caplets (total 1 g methylcellulose)	caplets/day
	PO with at least 240 mL (8 oz) of liquid, up	Powder: 6
	to 6 times per day as needed	grams/day

Drug Name	Dosing Regimen	Dose Limit/
		Maximum Dose
	Powder: 1 heaping tablespoonful (2 g methylcellulose per 19 g powder) in at least 240 mL (8 oz) of water PO, given 1 to 3 times per day as needed	
lubiprostone (Amitiza®)	IBS-C 8 mcg PO BID	16 mcg/day
Linzess (linaclotide)	IBS-C 290 mcg PO QD	290 mcg/day
Trulance (plecanatide)	IBS-C 3 mg PO QD	3 mg/day
calcium acetate	Hyperphosphatemia 2 capsules PO TID with meals; titrate to phosphorus < 6 mg/dL and calcium < 9.5 mg/dL	1,500 mg/day total elemental calcium
lanthanum (Fosrenol®)	Hyperphosphatemia 1,500 mg PO daily in divided doses; titrate by 750 mg/day every 2 to 3 weeks based on serum phosphorus level	4,500 mg/day
sevelamer carbonate (Renvela®)	 Hyperphosphatemia Starting dose for adult dialysis patients based on serum phosphorus level If serum phosphorus is: > 5.5 to < 7.5 mg/dL: 0.8 g PO TID w/ meals ≥ 7.5 mg/dL: 1.6 g PO TID w/ meals Starting dose for pediatric patients (6 years and older) based on body surface area (BSA) ≥ 0.75 to < 1.2: 0.8 g PO TID w/ meals ≥ 1.2: 1.6 g PO TID w/ meals Starting dose for patients switching from calcium acetate to Renvela based on calcium acetate 667 mg/capsule dosing schedule	14 g/day
ferric citrate (Auryxia®)	Hyperphosphatemia 2 tablets PO TID with meals; titrate by 1 to 2 tablets/day at 1-week or longer intervals based on serum phosphorus level	12 tablets/day

Drug Name	Dosing Regimen	Dose Limit/ Maximum Dose
sevelamer hydrochloride (Renagel®)	 Hyperphosphatemia Starting dose based on serum phosphorus level > 5.5 to < 7.5 mg/dL: Renagel 800 mg - 1 tablet PO TID; 400 mg - 2 tablets PO TID w/meals ≥ 7.5 to < 9 mg/dL: Renagel 800 mg - 2 tablets PO TID; 400 mg - 3 tablets PO TID w/meals ≥ 9 mg/dL: Renagel 800 mg - 2 tablets PO TID; 400 mg - 4 tablets PO TID w/meals Starting dose for patients switching from calcium acetate to Renagel based on calcium acetate 667 mg/tablet dosing schedule Calcium acetate 1 tablet PO TID: Renagel 800 mg - 1 tablet PO TID; 400 mg - 2 tabs PO TID Calcium acetate 2 tablets PO TID: Renagel 800 mg - 2 tablets PO TID; 400 mg - 3 tabs PO TID Calcium acetate 3 tablets PO TID: Renagel 800 mg - 3 tablets PO TID; 400 mg - 5 tablets PO TID 	13 g/day
sucroferric oxyhydroxide (Velphoro®)	Hyperphosphatemia 500 mg PO TID with meals	3,000 mg/day

Therapeutic alternatives are listed as Brand name® (generic) when the drug is available by brand name only and generic (Brand name®) when the drug is available by both brand and generic.

Appendix C: Contraindications/Boxed Warnings

- Contraindication(s): patients < 6 years of age due to the risk of serious dehydration; patients with known or suspected mechanical gastrointestinal obstruction
- Boxed warning(s) *Ibsrela only*: contraindicated in patients < 6 years of age; avoid use of Ibsrela in patients 6 years to < 12 years of age; the safety and effectiveness of Ibsrela have not been established in patients < 18 years of age

V. Dosage and Administration

Drug Name	Indication	Dosing Regimen	Maximum Dose
Ibsrela	IBS-C	50 mg PO BID	100 mg/day
Xphozah	Hyper-	30 mg PO BID before morning and	60 mg/day
	phosphatemia	evening meals	

VI. Product Availability

Drug Name	Availability
Ibsrela	Tablet: 50 mg
Xphozah	Tablets: 20 mg, 30 mg

Reviews, Revisions, and Approvals	Date	P&T Approval Date
1Q 2021 annual review: no significant changes; references to HIM.PHAR.21 revised to HIM.PA.154; references reviewed and updated.	10.16.20	02.21
1Q 2022 annual review: added redirection to generic lubiprostone per SDC; references reviewed and updated	11.16.21	02.22
Template changes applied to other diagnoses/indications and continued therapy section.	10.06.22	
1Q 2023 annual review: no significant changes; references reviewed and updated.	10.26.22	02.23
Per August SDC, removed HIM line of business. RT4: added Xphozah to policy.	10.26.23	12.23

Reviews, Revisions, and Approvals		P&T Approval
		Approvai Date
1Q 2024 annual review: no significant changes; references reviewed and updated.	10.12.23	02.24
Per August SDC, added the following clarification under the description and initial approval criteria sections: "These criteria do	08.22.24	12.24
NOT apply to California Exchange Plans. Requests for California Exchange Plans should be reviewed using HIM.PA.174"		
1Q 2025 annual review: removed Xphozah 10 mg strength due to product discontinuation; references reviewed and updated.	10.22.24	02.25
Per March SDC, removed Commercial and added HIM line of business; for IBS-C added redirection to Linzess and Trulance (adapted from HIM.PA.174 that will be retired to align Medicaid with the existing HIM strategy), applied similar redirections from initial to continuation of therapy requests.	03.11.25	05.25
Added step therapy bypass for IL HIM per IL HB 5395.	07.14.25	

Important Reminder

This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. The Health Plan makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved. "Health Plan" means a health plan that has adopted this clinical policy and that is operated or administered, in whole or in part, by Centene Management Company, LLC, or any of such health plan's affiliates, as applicable.

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions, and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable Health Plan-level administrative policies and procedures.

This clinical policy is effective as of the date determined by the Health Plan. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. The Health Plan retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment, or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members. This clinical policy is not intended to recommend treatment for members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this clinical policy are independent contractors who exercise independent judgment and over whom the Health Plan has no control or right of control. Providers are not agents or employees of the Health Plan.

This clinical policy is the property of the Health Plan. Unauthorized copying, use, and distribution of this clinical policy or any information contained herein are strictly prohibited. Providers, members, and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members and their representatives agree to be bound by such terms and conditions by providing services to members and/or submitting claims for payment for such services.

Note:

For Medicaid members, when state Medicaid coverage provisions conflict with the coverage provisions in this clinical policy, state Medicaid coverage provisions take precedence. Please refer to the state Medicaid manual for any coverage provisions pertaining to this clinical policy.
